Improvement of roads to different communities

Restauración, Dajabón.- The Restoration Municipality faces some challenges in terms of infrastructure at the level of highways and rural roads that connect one community with another, for this reason UNIGOLD has decided to be part of the road recovery solution to improve the productivity and competitiveness of the municipality.

His work has consisted of repairing different primary and secondary roads in the interior of Restauración, Dajabón, thus avoiding potholes that are aggravating to driving and can also cause accidents, losses for car owners in both wheels and suspensions.

With these contributions it is sought to guarantee the improvement of the mobility of the inhabitants, the transport of products that maintain the economic activity of Restoration and facilitate the transit of UNIGOLD vehicles that carry out transfers in the day-to-day of their operations.

These neighborhood road repairs have been carried out in different areas of Dajabón, such as the Cruz de Cabrera Abajo road section, the road that leads to Tierra Sucia in Carrizal, improvement of the road located in the Los Pinos Urbanization, road maintenance that leads to the Sabana Clara camp and nursery, on the road section that connects the Municipality of Restauración with the Community of Villa Anacaona (Lomita Piña), in the same way, an operation was carried out to cover gaps, among other important roads that connect the different communities of Dajabón .
