

Military received food donation from the mining company UNIGOLD

Restauración, Dajabón.- As part of its social responsibility, UNIGOLD donated canned food products to the military at kilometer 2, Villa Anacaona Highway, Restoration of the Ministry of Defense of the Dominican Republic, to contribute to the feeding of the military and police who provide services in that organization.

The crisis triggered by the COVID-19 pandemic has had a very particular impact on the military. Indeed, together with the firefighters and other rescue and protection units, they are in the first line of response, attending to emergencies and new functions derived from the health crisis while continuing with all the maintenance responsibilities of their institution.

These agents have remained in order and fulfillment of their daily tasks, regardless of any type of situation they are going through at a personal or professional level, that is why this type of action is carried out in order to convey gratitude and at the same time I support for his constant dedication.

The donation was delivered by the community relations team of the mining company UNIGOLD, the food transferred was received by the Commander in charge, from the Ministry of Defense, the G-2 member Florián, highlighted the initiative and commitment that UNIGOLD has to collaborate with this military entity as part of the social responsibility programs.

The donation is made up of basic food from the family basket.

This action was launched at the initiative of the mining company in support of the personnel of the Restoration barracks. Its objective has been to collaborate with the Ministry of Defense, as far as possible, to counteract in some way or another the precarious situations of the military and their families, caused by COVID-19.
